

1. Amend LMCO 116.22(M) to read as follows:

(M) *Technical description.* A technical description of the type of network proposed by the applicant, including, but not limited to, a network map, network configuration (i.e. hub), network capacity, two way operation capability and service to be provided, and a description of the studio or studios, studio equipment, planned hours of operation and hours of availability, if any, that same will be made available to governmental, public and/or educational institutions or agencies. Network designs are to be submitted in bullet format detailing equipment start point, routes and end point location accompanied by net work routing maps(s).

2. Amend LMCO 116.71(D)(1)(f) to read as follows:

(f) *Technical description.* Applicant shall provide a technical description of the type of system proposed by the applicant and applicant's plan for the installation of the system. System designs are to be submitted in bullet format detailing equipment start point, routes and end point location accompanied by net work routing maps(s). The following information shall be included in the application:
